Voting for Bush Grant Logic Model Topics

May 12th 2016, 8:42 am CDT

Q2 - Pick four of your top Short Term (0-2 Years) Tasks/Initiatives to develop into program logic models

Answer	%	Count
Simple, visual representation(s) (flow chart, idea tree) of regulatory concepts - This is meant to make it easier for people to learn what they know or don't know so all can be on the same page.	58.33%	7
Improved inspector communication of role - All MDH/MDA/Delegated inspectors can communicate effectively what they are and aren't able to do within their role for food entrepreneurs.	41.67%	5
Leverage Food Safety Partnership (MDH)/Food Safety Defense Task Force (MDA) - Increase the capability of the Food Safety Partnership to provide trainings, resources, and food safety initiatives for inspectors in connection and collaboration with the Food Safety Defense Task Force.	41.67%	5
ID collaborators (SFA, MISA, etc.) - Make map/list of collaborators and resources associated with local food businesses.	41.67%	5
Explore "Minnesota Business First Stop" (DEED) system more - Investigate if DEED infrastructure for new businesses could be tailored for new food businesses too.	41.67%	5
Food safety volunteers (retired inspectors) - Set up a volunteer network (similar idea to Medical Reserve Corps) that connects experienced food business	25.00%	3

professionals with new food entrepreneurs.		
Map/List of related resources and economic development organizations - Create comprehensive document summarizing economic development organizations across Minnesota and what areas/business types they serve. Direct questions MDH/MDA/Delegated can’t answer to “in-community” business advisors/stakeholders/service providers (related resources).	25.00%	3
Standing meetings among coordinated agencies/”regional system” meetings 2x per year - MDA/MDH/Delegated staff travel to different geographical areas in Minnesota 2x a year to hold open meets for food businesses to ask questions and voice concerns.	58.33%	7
Workshops or continued education for entrepreneurs - Identify organization(s) who would hold workshops and trainings for food entrepreneurs with evolving curriculum based on agency and entrepreneur needs.	66.67%	8

Short Term (0-2 Year) Votes

- Simple, visual representation(s)
 Improved inspector communication
- Leverage FS Partnership
 ID Collaborators
 Explore MN First Stop (DEED)
- Food Safety Volunteer Mentors
 Map/List of related resources
- Standing meetings among agencies
 Workshops/Edu for Entrepreneurs

Q3 - Pick one top Medium Term (3-5 Years) Tasks/Initiatives to develop into program logic model

Answer	%	Count
Develop Feedback System - Create avenues for food entrepreneurs to give anonymous feedback to MDA/MDH/Delegated and create appeal process for food entrepreneurs if experiencing conflict with inspectors.	8.33%	1
“Regulatory Navigators” (new MDA/MDH/Delegated FTEs) - New staff added to MDA/MDH/Delegated whose entire job is focused on helping food businesses navigate the rules and regulations and obtain inspection/license(s) at a reasonable speed.	25.00%	3
Ombudsperson hirings outside MDA/MDH/Delegated to have localized “regulatory navigators” - Create resource outside MDA/MDH/Delegated similar to the Foodborne Illness Hotline that has one point of contact and a single person can identify trends in food business needs.	0.00%	0
Improved tracking system for everything that comes into MDA/MDH/Delegated - Develop a software program which serves both departments and delegated agencies and better allows for collaboration and tracking of food businesses.	16.67%	2
Regional “hub expert” or Food Safety Hub Expert - Create positions throughout MN that farmers/food businesses trust to ask food safety-related questions.	25.00%	3
In-depth research of Minneapolis 311 System - Systematic study and feasibility report on how to create a	25.00%	3

statewide version of the
Minneapolis 311 System.

Medium Term (3-5 Year) Votes

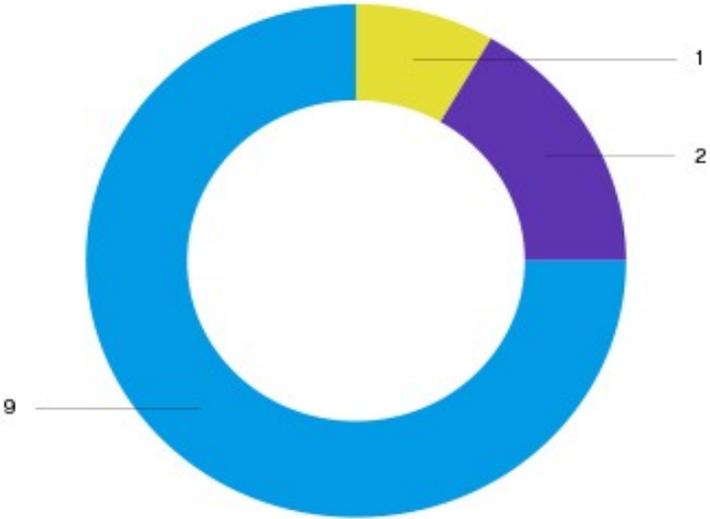

- Develop Feedback System
- Regulatory Navigators
- Outside, Localized Ombudspersons
- Improved Tracking
- Regional Food Safety Experts
- In-depth research of 311 System

Q4 - Pick one top Long Term (+5 Years) Tasks/Initiatives to develop into program logic model

Answer	%	Count
Statutory changes - Identify statues that need to be changed, how they need to be changed, and the lobbying/support needed to make these changes.	8.33%	1
Realignment/streamlining/restructuring (MDA/MDH/Delegated Agency) - Explore ways realigning and streamlining within MDA/MDH/Delegated Agencies could create more efficiency and eliminate confusion.	16.67%	2
Statewide implementation of some or all components of Minneapolis 311 System - Using results of systematic study, set in place a statewide version of the Minneapolis 311 System.	75.00%	9

Long Term (+5 Year) Votes

Statutory Changes Realignment/Streamlining/Restructuring Statewide 311 System
