Organic Field Day
Wednesday, July 15, 2015

Organic Field School
Wednesday, July 22, 2015

This annual event will feature a tradeshow of organic vendors and products, a field tour of various organic research projects being conducted by SWROC staff and faculty from the St. Paul campus, lunch, and presentations on the marketing of organic crops.

The event will mainly be teaching and demonstration activity to show farmers how to use a flame weeder, tine weeder, rotary hoe, and the Lilliston Rolling Cultivator to control weeds during various corn and soybean growth stages and growing conditions set up by SWROC staff.

9:00 a.m. Registration & Tradeshow
