Kent Scheer, Green Island Reserve, Wadena, MN

Greg Schweser, U of MN Extension Regional Sustainable Development Partnerships

Noreen Thomas, Doubting Thomas Farm, Moorhead, MN

Jared Walhowe, Healthy Foods Healthy Lives, University of Minnesota

This publication is dedicated in memory of Paul Otten, 1938-2018. Paul was from the tropics, but spent much of his life promoting the cultivation of currants and other emerging crops suitable for the north. He was a mentor and teacher to many. He promoted the health benefits of berries long before the topic became popular, and demonstrated that our farms could be self sufficient.
